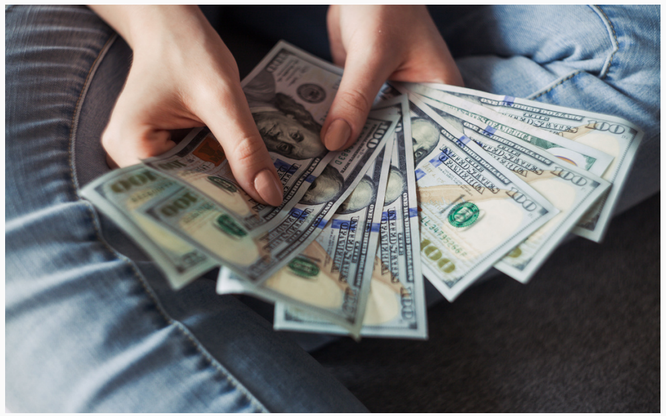
DFDI: 22-01-01 Covid 19 Family Differential Payment

CCCC



OVERVIEW

In response to the COVID-19 health emergency, DFD will extend Differential Payments for licensed child care centers and family child care providers (FCCs) from January 1, 2022 through December 31, 2023. The Differential Payments will continue to provide up to $300 for full-time care, or $150 for part-time care, per eligible child, per month above the baseline reimbursement rate. The Differential Payment extension is intended to support the stability and sustainability of these child care providers, and to provide relief to families who use the child care assistance program.

DFDI: 22-01-01 Covid 19 Family Differential Payment

CCCC

As a reminder, the Differential Payments are designed to help pay the tuition difference and reduce any other costs or fees paid by families that are not covered by the baseline reimbursement payments. This means that if a provider's rate is greater than the baseline reimbursement rate, the provider must reduce the family's cost of care, any difference owed, or credit issued (if monies are owed), by the additional amount received through the Differential Payment.

Families will only pay the tuition difference if the total subsidy payment (reimbursement rate plus Differential Payment) does not cover the provider rate.

Covid-19 Family Differential Payment Acknowledgment Form

The Differential Agreement form must be filled out completely for ALL SUBSIDY children, as well as, New contracts. The form must be submitted to the county where the case is coming from.

DFDI No. 22-09-04
Post Transitional Child Care Program Discontinued

OVERVIEW

PTCC was created in 2002 for families who exhausted their twenty-four (24) months of Transitional Child Care (TCC) eligibility, but remained eligible for child care assistance. Under PTCC, a portion of federal At-Risk Child Care (ARCC) funds were dedicated to providing child care assistance to former Temporary Assistance for Needy Families (TANF) recipients who met the eligibility criteria for the New Jersey Cares for Kids Program, now known as the Child Care Assistance Program (CCAP).

With the incorporation of ARCC funds into the Child Care Development Fund (CCDF), there is no longer a separate funding stream for PTCC cases.

CCCC

DFDI No. 22-09-04
Post Transitional Child Care Program Discontinued

POLICY

Effective August 1, 2022, PTCC is no longer an authorized program under CCAP. Families that complete twenty-four (24) months of TCC and remain eligible for child care assistance shall be redetermined for child care assistance according to CCAP eligibility requirements. The CARES system has been updated to disable Program Code '07' for new TCC cases

DFDI: 22-06-01 Enrollment Based Payments Extension

CCCC

- The New Jersey Department of Human Services, Division of Family Development (DHS/DFD) has an important update on the policy to pay you based on enrollment, rather than attendance, for children in the Child Care Assistance Program. As you know, DHS/DFD has been paying based on enrollment rather than attendance for most of the pandemic, and that was scheduled to end on June 30, 2022. DHS/DFD will now continue to pay based on enrollment through June 2023.

DFDI: 22-06-01 Enrollment Based Payments Extension

CCCC

Purpose:

On October 26, 2022, a notification was emailed to providers through NJCCIS informing of the extension.

- The notification also reminded providers to utilize the payment portal (EPPIC) and record absences of children receiving funds through CCAP. Check your portal make sure that children on your EPPIC portal should be there or removed to avoid recoupments of payments.

The provider should notify your local CCR&R, within 10 business days any changes in enrollment such as children no longer attending, or away for extended period of time, gaps in care, or any other circumstances regarding enrollment.

CCCC

DFDI No. 22-11-01
Afghan Special Immigrants and Humanitarian Parolees

Purpose:

In response to the recent evacuations from Afghanistan, The United States citizenship and Immigration Servies (USCIS) has created new immigration codes for Afghan citizens or nationals. Additionally, the categories of noncitizens who are immediately eligible for Federally funded means-tested public benefits has been expanded.

This instruction is a reissuance of DFDI No. 21-11-03 and Implements changes in federal law. The timeframe during which Afghan humanitarian parolees may enter the United States and be considered eligible for public assistance has been extended from September 16, 2022 to December 16, 2022.

CCCC

DFDI No. 22-11-01
Afghan Special Immigrants and Humanitarian Parolees

OVERVIEW:

Due to the recent evacuation of Afghan citizens and nationals from Afghanistan, there has been an increase in the number of Afghan individuals relocated to the United States. The majority of these individuals fall into four groups:

1. Special Immigrant Visa (SIV)
2. Special Immigrant Parole (SQ/SI)
3. Special Immigrant Conditional Permanent Residents
4. Humanitarian Parolees entering the United States without SQ/SI parole or conditional permanent residency.

Under federal law, citizens or nationals of Afghanistan who have worked on behalf of the United States are eligible for an SIV. Due to the difficulty in processing SIV applications, individuals who are likely eligible for an SIV have been granted Special Immigrant Parole or Special Immigrant Conditional Permanent Residency. All citizens or nationals of Afghanistan with a "Special Immigrant" status are immediately eligible for federally-funded means-tested public benefits to the same extent as Refugees.
